## DATASHEET

L-AP4

### Product overview

Name	L-AP4
Cat No	HB0370
Biological action	Agonist
Purity	>99%
Customer comments	<i>Great product - L-AP4 arrived in time for experiments. Excellent documentation and ease of use. Data looks promising from experiments - happy customer! Verified customer, The University of Newcastle</i>
Description	L-AP4 is a selective group III mGluR agonist which inhibits synaptic transmission.

### Images

### Biological Data

#### Biological description

L-AP4 is a selective group III mGluR agonist ( $EC_{50}$  values are 0.9, 252, 0.06-0.6  $\mu$ M at mGlu<sub>4</sub>, mGlu<sub>7</sub>, mGlu<sub>8</sub> receptors respectively and >1000  $\mu$ M at other mGluRs) and also a weak NMDA receptor agonist.

L-AP4 is a potent synaptic depressant.

L-AP4 reduces glutamate release, inhibits glutamate-mediated EPSPs in the hippocampus, olfactory cortex and spinal cord and inhibits long term potentiation (LTP) *in vivo*.

Additionally, L-AP4 also inhibits GABA release and reversibly reduces GABA-mediated inhibitory post-synaptic potential (IPSP) amplitude.

L-AP4 also shows neuroprotective properties.

### Solubility & Handling

#### Storage instructions

Room temperature

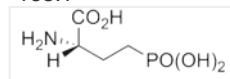

#### Solubility overview

Soluble in water (5mM) and in 0.1M NaOH (100mM)

#### Important

This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

## Chemical Data

Chemical name	L-(+)-2-Amino-4-phosphonobutyric acid
Molecular Weight	183.1
Chemical structure	
Molecular Formula	C <sub>4</sub> H <sub>10</sub> NO <sub>5</sub> P
CAS Number	23052-81-5
PubChem identifier	179394
SMILES	C(CP(=O)(O)O)[C@@H](C(=O)O)N
Source	Synthetic
InChi	InChI=1S/C4H10NO5P/c5-3(4(6)7)1-2-11(8,9)10/h3H,1-2,5H2,(H,6,7)(H2,8,9,10)/t3-/m0/s1
InChiKey	DDOQBQRIEWHWBT-VKHYHEASA-N
MDL number	MFCD00083244
Appearance	White solid
