

# Muromonab Biosimilar - Research Grade

Muromonab-CD3 Biosimilar - Research Grade **Product Details:** ichorbio's muromonab-CD3 biosimilar is for Research Use Only (RUO) Size: ichorbio's RUO muromonab-CD3 biosimilar is available in the following sizes: 1mg, 5mg, 10mg, 20mg, 50mg, 100mg ichorbio regularly manufactures bulk multi-gram amounts of this biosimilar - please contact us for pricing. **Target:** CD3e **Isotype:** Mouse IgG2a CH1+Human IgG1 CH2+CH3-Mouse Kappa **Other Names:** OKT-3 **Host:** CHO cells **Species Reactivity:** Human **Specificity:** Detects human CD3e. **Purification Method:** This recombinant protein was purified using multi-step affinity chromatography methods such as Protein A or G depending on the species and isotype. **Background:** Muromonab is an immunosuppressant drug given to reduce acute rejection in patients with organ transplants. It is a monoclonal antibody targeted at the CD3 receptor, a membrane protein on the surface of T cells. It was the first

ichor.bio // hello@ichor.bio

**Concentration:** 

monoclonal antibody to be approved for clinical use in humans.

Products are for research use only. Not for use in diagnostic or therapeutic procedures. ichorbio, ichorbio logo and all other trademarks are the property of ichorbio LTD © ichorbio 2023 Page 1

1.0 - 5.0 mg/ml

#### **Formulation:**

Sterile, preservative-free, solution in PBS. BSA and Azide free.

## **Purity:**

>95% by SDS-PAGE and HPLC

#### **Endotoxin:**

? 1.0 EU/mg as determined by the LAL method

#### **Storage:**

Muromonab-CD3 biosimilar - Research Grade is stable for at least four (4) weeks when stored sterile at 2-8°C. For long term storage aseptically aliquot in working volumes without diluting and store at -80°C. Avoid Repeated Freeze Thaw Cycles.

# **Applications:**

**Functional Assays** 

### **Application Notes:**

Each investigator should determine their own optimal working dilution for specific applications.

Use: ichorbio's muromonab-CD3 biosimilar is for research use only (RUO).
