Product Information

Lagochiline

Item No. 13955

CAS Registry No.: 23554-81-6

Formal Name: (4'aS)-decahydro-6'S-hydroxy-5-(2-hydroxyethyl)-

2'R,5',8'aS-trimethyl-spiro[furan-2(3H),1'R(2'H)-

naphthalene]-5S,5'R-dimethanol

MF: $C_{20}H_{36}O_{5}$ FW: 356.5 **Purity:** ≥95%

Stability: ≥2 years at -20°C Supplied as: A crystalline solid Light sensitive Miscellaneous:

Laboratory Procedures

For long term storage, we suggest that lagochiline be stored as supplied at -20°C. It should be stable for at least two years. Lagochiline is supplied as a crystalline solid. A stock solution may be made by dissolving the lagochiline in the solvent of choice. Lagochiline is soluble in methanol, which should be purged with an inert gas. The solubility of lagochiline in methanol is approximately 1 mg/ml.

Lagochiline is sparingly soluble in aqueous solutions. To enhance aqueous solubility, dilute the organic solvent solution into aqueous buffers or isotonic saline. If performing biological experiments, ensure the residual amount of organic solvent is insignificant, since organic solvents may have physiological effects at low concentrations. We do not recommend storing the aqueous solution for more than one day.

Plants from the mint genus Lagochilus have been used in traditional medicines of the east. Lagochiline is a polyphenolic natural product isolated from Lagochilus spp. which is thought to provide some of the benefits of the herb. The physiological, immunological, and toxicological properties of this compound remain to be determined. This product is intended for research and forensic purposes.

WARNING: This product is for laboratory research only: not for administration to humans. Not for human or veterinary DIAGNOSTIC OR THERAPEUTIC USE.

MATERIAL SAFETY DATA

This material should be considered hazardous until information to the contrary becomes available. Do not ingest, swallow, or inhale. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. This information contains some, but not all, of the information required for the safe and proper use of this material. Before use, the user must review the complete Material Safety Data Sheet, which has been sent via email to your institution.

WARRANTY AND LIMITATION OF REMEDY

Cayman Chemical Company makes **no warranty or guarantee** of any kind, whether written or oral, expressed or implied, including without limitation, any warranty of fitness for a particular purpose, suitability and merchantability, which extends beyond the description of the chemicals hereof. Cayman **warrants only** to the original customer that the material will <u>meet our specifications</u>

purpose, suitability and merchantability, which extends beyond the description of the chemical purpose, suitability and merchantability, which extends beyond the description of the chemical purpose, suitability and merchantability, whether in tort (including negligence) or in contract, for any direct, incidental or consequential damages, even if Cayman is informed about their possible existence.

This limitation of liability does not apply in the case of intentional acts or negligence of Cayman, si directors or its employees.

Buyer's exclusive remedy and Cayman's sole liability hereunder shall be limited to a refund of the purchase price, or at Cayman's option, the replacement, at no cost to Buyer, of all material that does not meet our specifications.

Said refund or replacement is conditioned on Buyer giving written notice to Cayman within thirty (30) days after arrival of the material at its destination. Failure of Buyer to give said notice within thirty (30) days shall constitute a waiver by Buyer of all claims hereunder with respect to said material.

For further details, please refer to our Warranty and Limitation of Remedy located on our website and in our catalog.
