

**Revision number:** 1 Revision date: 07/06/2018

# 1. IDENTIFICATION

Product name: Product code:

## Product use: **Restrictions on use:**

Company: TCI America 9211 N. Harborgate Street Portland, OR 97203 U.S.A. Telephone: +1-800-423-8616 / +1-503-283-1681 Fax: +1-888-520-1075 / +1-503-283-1987 e-mail: sales-US@TCIchemicals.com www.TCIchemicals.com

# 2. HAZARD(S) IDENTIFICATION

OSHA Haz Com: CFR 1910.1200: Eye Damage/Irritation [Category 1] WHMIS 2015: Corrosive to Metals [Category 1] Skin Corrosion/Irritation [Category 1B] Signal word: Danger! Hazard Statement(s): May be corrosive to metals Causes severe skin burns and eye damage Pictogram(s) or Symbol(s): Precautionary Statement(s): Keep only in original container. Do not breathe dusts or mists. Wash hands and face thoroughly after [Prevention] handling. Wear protective gloves, protective clothing, face protection. [Response] If swallowed: Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Immediately call a poison center or doctor. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center or doctor. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor. Absorb spillage to prevent material damage. [Storage] Store in corrosive resistant bottle or metal container with a resistant inner liner. Store locked up. [Disposal] Dispose of contents and container in accordance with local, regional, national regulations (e.g. US: 40 CFR Part 261, EU:91/156/EEC, JP: Waste Disposal and Cleaning Act, etc.).

Hazards not otherwise classified: [HNOC]

2-Nitrophenylsulfenyl Chloride [N-Protecting Agent for Peptides Research] N0363

TCI AMERICA

SAFETY DATA SHEET

For laboratory research purposes. Not for drug or household use.

## Emergency telephone number:

Chemical Emergencies: TCI America (8:00am - 5:00pm) PST +1-503-286-7624 Transportation Emergencies: Chemtrec 24-Hour +1-800-424-9300 (U.S.A.) +1-703-527-3887 (International) **Responsible department:** TCI America Environmental Health Safety and Security +1-503-286-7624

May develop pressure

3. COMPOSITION/INFORMATION ON INGREDIENTS

#### Substance Substance/mixture: **Components:** 2-Nitrophenylsulfenyl Chloride [N-Protecting Agent for Peptides Research] >95.0%(GC)(T) Percent: CAS RN: 7669-54-7 Molecular Weight: 189.61 **Chemical Formula:** C6H4CINO2S 2-Nitrobenzenesulfenyl Chloride, NPS Reagent Synonyms: 4. FIRST-AID MEASURES Description of first aid measures Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor/physician. Skin contact: Remove/Take off immediately all contaminated clothing. Gently wash with plenty of soap and water. Immediately call a POISON CENTER or doctor/physician. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Eye contact: Continue rinsing. Immediately call a POISON CENTER or doctor/physician. Immediately call a POISON CENTER or doctor/physician. Rinse mouth. Do NOT induce vomiting. Ingestion: Symptoms/effects: Pain. Redness. Acute: No data available Delayed: Indication of any immediate medical attention: Not available. Notes to physician: No data available 5. FIRE-FIGHTING MEASURES Dry chemical, carbon dioxide. Suitable extinguishing media: Unsuitable extinguishing media: Water Specific hazards arising from the Take care as it may decompose upon combustion or in high temperatures to generate poisonous fume. chemical: These products include: Carbon oxides Nitrogen oxides Sulfur oxides Halogenated compounds Hazardous combustion products: Other specific hazards: WARNING: Highly toxic HCl gas is produced during combustion. Wear self-contained breathing apparatus if possible. Advice for firefighters: 6. ACCIDENTAL RELEASE MEASURES Personal precautions, protective Use personal protective equipment. Keep people away from and upwind of spill/leak. Entry to equipment and emergency procedures: non-involved personnel should be controlled around the leakage area by roping off, etc. **Environmental precautions:** Prevent product from entering drains. Methods and materials for containment Sweep dust to collect it into an airtight container, taking care not to disperse it. Adhered or collected and cleaning up: material should be promptly disposed of, in accordance with appropriate laws and regulations. Do not allow contact with water. Remove all sources of ignition. Fire-extinguishing devices should be Prevention of secondary hazards: prepared in case of a fire. Use spark-proof tools and explosion-proof equipment. 7. HANDLING AND STORAGE

| Precautions for safe handling:         | Handling is performed in a well ventilated place. Wear suitable protective equipment. Prevent dispersion of dust. Wash hands and face thoroughly after handling. Use a closed system if possible. Use a local exhaust if dust or aerosol will be generated. Avoid contact with skin, eyes and clothing. |
|--|---|
|  | May develop pressure. Open carefully. Use corrosive resistant equipment.  |
| Conditions for safe storage, including | any incompatibilities   |
| Storage conditions:                    | Keep container tightly closed. Store in a cool and dark place.  |
|  | Store under inert gas. Protect from moisture. Store locked up.  |
|  | Store away from incompatible materials such as oxidizing agents.  |
|  | Moisture-sensitive  |
| Packaging material:                    | Comply with laws. Keep only in original container.  |

# 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| Appropriate engineering controls: | Follow safe industrial engineering/laboratory practices when handling any chemical. Install a closed system or local exhaust. Also install safety shower and eye bath.                                 |
|-----------------------------------|--|
| Personal protective equipment     |  |
| Respiratory protection:           | Dust respirator, self-contained breathing apparatus(SCBA), supplied air respirator, etc. Use respirators<br>approved under appropriate government standards and follow local and national regulations. |
| Hand protection:                  | Impervious gloves.   |
| Eye protection:                   | Safety goggles. A face-shield, if the situation requires.  |
| Skin and body protection:         | Impervious protective clothing. Protective boots, if the situation requires.   |

# 9. PHYSICAL AND CHEMICAL PROPERTIES

| Physical state (20°C):        | Solid                |                                       |                    |
|-------------------------------|----------------------|---------------------------------------|--------------------|
| Form:                         | Crystal - Powder     |                                       |                    |
| Colour:                       | Pale yellow - Yellow |                                       |                    |
| Odour:                        | No data available    |                                       |                    |
| Odor threshold:               | No data available    |                                       |                    |
| Odour threshold:              | No data available    |                                       |                    |
| Melting point/freezing point: | 75°C (167°F)         | pH:                                   | No data available  |
| Boiling point/range:          | No data available    | Vapour pressure:                      | No data available. |
| Decomposition temperature:    | No data available    | Vapour density:                       | No data available  |
| Relative density:             | No data available    | Dynamic Viscosity:                    | No data available  |
| Kinematic viscosity:          | No data available    |                                       |                    |
| Log Pow:                      | No data available    | Evaporation rate(Butyl<br>Acetate=1): | No data available  |
| Flash point:                  | No data available    | Autoignition temperature:             | No data available  |
| Flammability(solid, gas):     | No data available    | Flammability or explosive limits:     |                    |
|                               |                      | Lower:                                | No data available  |
|                               |                      | Upper:                                | No data available  |
| Solubility(ies):              |                      |                                       |                    |
| [Water]                       | No data available    |                                       |                    |
| [Other solvents]              | No data available    |                                       |                    |

# 10. STABILITY AND REACTIVITY

Reactivity:No data availableChemical stability:Stable under proper conditions.Possibility of hazardous reactions:Decomposes in contact with water and liberates toxic gases.Conditions to avoid:MoistureIncompatible materials:Oxidizing agents, BasesHazardous decomposition products:Carbon dioxide, Carbon monoxide, Nitrogen oxides (NOx), Hydrogen chloride, Sulfur oxides

# 16. OTHER INFORMATION

# Revision date: 07/06/2018

# Revision number: 1

TCI chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its affiliates or subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our SDS are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to degradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated SDS for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective goggles, protective clothing, breathing equipment, face mask, fume hood). For proper handling and disposal, always comply with federal, state and local regulations.
